I believe that everything happens for a reason. Therefore, I have used the time of uncertainty due to Covid-19, to re-invent and invigorate my choice of careers. My new found passion for building responsive and dynamic sites and apps for the benefit of humanity is my purpose. I have faith that, through hard work and dedication, I will become great at being either part of a creative team or a master of creating things for individuals myself. Either way, I've got my boots strapped tight (pun intended) for the journey at hand. God Bless and keep you all until that journey brings us together. Who knows the opportunities we will bring to each other's lives as we trudge the road to happy destiny...

## WORK EXPERIENCE

---

### **Freelance Web Developer/Designer**

**Freelancer** - Winter Springs, FL

March 2020 to Present

I have fallen in love with Technologies and languages of web development. I earned my first Tech Degree with Team Treehouse and am already hard at work building sites and apps for friends and clients on the side. My goal is to land a job with a company and expand and grow my knowledge and experience while improving the lives of those around me.

### **Server/Bartender**

**Stefanos trattoria** - Winter Springs, FL

2010 to 2020

I started out as a semi-experienced server and worked my way up to the Head service trainer and bar-tender during my ten years at Stefano's Trattoria. I am very loyal and hard working so it was a hard decision to leave, but I had to think of my step-son and his compromised immune system due to autism. I've re-dedicated myself to learning and growing in the industry of web development.

### **Server/Bartender**

**Red Lobster** - Altamonte Springs, FL

2002 to 2009

I worked at several different locations in my journey at Red Lobster and grew as a person through giving people fun, fast and friendly service that routinely exceeded their expectations.

## CERTIFICATIONS AND LICENSES

---

### **Team Treehouse (FEWD) Tech Degree**

March 2020 to Present

Team Treehouse has given me all the foundational knowledge required in order for me to expand and grow into a great web developer. I hope to keep in touch and possibly help everyone I have had the privilege of meeting and/or collaborating with through my journey there. My goal is to be the best that I can at making life easier for everyone through creative coding and elegant design.

### **Marine Sharp Shooter**

1996 to 2000

I was awarded the Marine sharp shooter badge. It is middle of the road, between expert and marksman.
